What is a Conveyancer?

What is a conveyancer?

A conveyancer helps clients with property and business transfers. They ensure that the process of buying or selling property is done correctly and legally. Conveyancers prepare and advise on contracts, conduct title searches, handle mortgage documents, and manage financial and legal aspects of property transactions.

What skills and strengths are needed?

A thorough understanding of property laws and financial regulations is essential. Conveyancers must have strong attention to detail and excellent organisational skills. They need to be good communicators to explain complex legal information to clients.

What are the pathways?

You typically need an Advanced diploma in conveyancing combined with practical experience. University is also a pathway as in some states and territories, only solicitors can perform conveyancing work.

“We do not need magic to change the world, we carry all the power we need inside ourselves already: we have the power to imagine better.”

— J.K. Rowling

The agriculture industry is the ideal destination for the next generation of trailblazers, with boundless opportunities for young and ambitious individuals seeking a career that's not just a job but a pathway to achieving a sustainable global future.

Agriculture is about innovation, technology, sustainability, and community. So whether you're passionate about science, technology, business, or the environment, the agriculture industry offers an array of exciting careers.

The world of agricultural work needs a diverse range of skilled people working in environments from the paddock to the plate!

Jobs in the agriculture industry are available at all skill levels and can be attained through:

- On-the-job training
- Vocational Education and Training (VET)
- Traineeships and apprenticeships
- Higher education

Discover how you can launch your agriculture career with a priority traineeship or apprenticeship and explore fee-free TAFE short, certificate, and diploma courses. Or, find inspiration in AgriFutures Career Ambassadors' stories about how they discovered their passions and place with a career in ag.

Agriculture supports 1.7 million Australian jobs with more than 80% of careers in the sector found beyond the farm gate.

Download our [Guide to Agriculture Careers](#) which showcases 16 diverse occupations through the profiles of VET Ambassadors and AgriFutures Career Ambassadors. Learn about the education, training, and employment pathways of these young Australians forging their own Agri-adventures.

Secure a place at the only Australian uni awarded five stars for Overall Experience 18 years in a row, before you receive your year 12 results.

The Good Universities Guide, 2024

UNE Early Entry Program

The UNE direct Early Entry program recognises that an ATAR is not the only measure of future success at university, so it's open to all Year 12 applicants, whether or not you're expecting to receive an ATAR.

Early Entry relies on your school's assessment of your attributes and abilities: your ability to work and learn independently, and your overall potential for academic success. Based on your school's recommendation, UNE will guarantee you an offer to start in 2025.

Apply directly to get your offer before the release of Year 12 results, giving you the certainty that no matter what happens, you have a place at UNE.

How Does Early Entry Work?

- Submit a quick, free, direct online application. A UAC/QTAC application is not required.
- Choose up to three course preferences.
- Combined with your school's recommendation, UNE determines your best offer - no ATAR required.
- UNE guarantees you an offer. If not for one of your preferences, for an alternative course.
- As part of your Early Entry offer, you will have a place saved in UNE Residential College accommodation.
- In addition, you may also submit an UAC/QTAC application to increase your chances of receiving an offer for your preferred course.

Key Dates

Round 2 early entry applications close on 14 October with offer letters released on 15 November.

For more information or to apply, visit **UNE Early Entry**.

Tertiary applications for 2025 study are open Australia-wide!

Designed to help you easily navigate the tertiary application process, our Applying to University Survival Guides give you a quick start to every Tertiary Admission Centre in Australia.

Each guide includes:

- The list of participating institutions.
- A summary of key dates and fees.
- Steps to the application process.
- Tips for listing your preferences.
- Summaries of access and entry schemes and scholarship.
- Helpful video demonstrations.
- Links to important website pages.
- Downloadable resources to help keep your application on track.
- Links to the TAC's socials so you have updates at your fingertips.

Download your Applying to University Survival Guide via the links below

Queensland: QTAC for QLD and some Northern NSW institutions

SA & NT: SATAC for institutions in South Australia and the Northern Territory

Western Australia: TISC for WA institutions

NSW/ACT: UAC for NSW and ACT institutions

Victoria: VTAC for Victorian institutions

The University of Tasmania processes its own applications. Visit its [Applying to University](#) page to learn more.

A free agriculture experience for year 11 & 12 students to learn how science is solving real world challenges!

About the program

The Feed Your Mind, Feed the World (FYM) camp is a three-day experience for Year 11 and 12 students interested in learning more about agricultural science and career pathways stemming from an agricultural science degree.

The camp is hosted by the Tasmanian Institute of Agriculture (TIA), which is the agricultural research arm of the University of Tasmania and responsible for teaching the Bachelor's degree.

The FYM camp is held in North West Tasmania, allowing students to observe and interact with several diverse agricultural industries and learn about the advantages of studying agricultural science in Tasmania, including a visit to our research farms.

TIA staff members supervise students during the camp, and specific degree details and information on studying at the University of Tasmania are also provided.

Camp Dates: 3–5 December 2024.

Who can apply?

Students currently in Year 11 and year 12.

What is included in the camp?

Transport

For Tasmanian students, transport to/from Hobart, Launceston, Burnie, and Devonport will be provided.

For interstate students, transport from Hobart and Launceston airport will be provided. You will need to arrange and cover the expenses for your flights and transport to and from your home airport.

Accommodation:

Students will be stay in cabins at Camp Clayton.

Meals: All meals will be provided.

When do applications close?

Applications close at midnight on Friday, October 25, 2024.

[Find more information and apply here.](#)

Applications are assessed on:

Financial need: Applicants who have a greater degree of financial need for assistance with educational and living costs will have a higher chance of being recommended for a scholarship.

Academic potential: An assessment is made about the ability of the applicant to complete the nominated course of study and is dependent on recent academic results and an academic referee or employer report.

Deservedness: Deservedness is based how the veteran’s service in the Australian Defence Force has impacted the family’s health and wellbeing. Applicants will need to detail the health conditions of the veterans.

Applications open 18 August and close on 31 October 2024.

Tertiary scholarships for children and grandchildren of Australian ex-serving veterans of \$4000-\$6000 per year, for up to three years.

Eligibility

- Australian residency or citizenship.
- Child or grandchild of an Australian ex-serving veteran.
- Full-time tertiary student in 2025, enrolled in a min. 1 year course at university, TAFE, or an RTO.
- In receipt of or eligible to receive Youth Allowance, ABSTUDY, or VCES or MRCAETS in 2025.

Learn about preparing your application in the [Application Guide](#) below.

Looking for something fun to do this National Science Week? Check out the Girls Day Out in STEM Imagineering Adventure, an online event running from August 10-18, 2024.

Discover so much more than just sustainability - Take the hero's path to enter the Girls Day Out in STEM Imagineer-verse where you get to be the imagineer for a better world!

In the news

This year's National Science Week theme is 'Species survival: more than sustainability'. As usual, Girls Day Out in STEM is putting a unique spin on that message. Their thinking? The greatest impact on any species in the world, plant or animal, (including the human species), is *us*.

The fun news

In the Girls Day Out in STEM Imagineering Adventure, you'll visit each world in the Girls Day Out in STEM metaverse and explore all of the activities. Then? Share your work to collect fun stamps for your Girls Day Out in STEM virtual passport.

Did we mention there are prizes?

After you take part in each world of the Imagineer-verse and collect all of the individual world stamps, you can go in the draw to win some amazing prizes. You could win an iPad thanks to Telstra or a pair of epic Ray Ban XR glasses thanks to Meta.

Register now

Girls Day Out in STEM Imagineering Adventure is running throughout National Science Week, on August 10-18, 2024. [Head here to reserve your spot](#) and get ready to imagineer a world that YOU want to see.

Get involved in these extra-curricular challenges and competitions to pursue your passions, build your skills, and develop your portfolio. All are free (unless otherwise stated), and many offer amazing prizes!

Think Science

Perform an investigation and document your process and findings in a video. Over \$10,000 in prizes are on offer. Student must be registered by a teacher.

- Open to: Students in Grade 3 - Year 10.
- Dates: now - 16th August 2024.

UNSW Bragg Student Prize

In an 800 word essay, describe some great community interaction with conservation and biodiversity.

- Open to: Year 7 - 10 students.
- Dates: now - 23rd August 2024.

National History Challenge

Be a historian, researching world history, examining Australia's past, investigating your community or exploring your own roots!

- Open to: Everyone over 12 years-old.
- Dates: now - 23rd August 2024.

Songwriting Competition

Submit a demo of an original song that you or your group has written along with written lyrics. Prizes valued at over \$2,500

- Open to: ACT, NSW, VIC, & QLD Year 9-12 students.
- Dates: now - 31st August 2024.

Get involved in these extra-curricular challenges and competitions to pursue your passions, build your skills, and develop your portfolio. All are free (unless otherwise stated), and many offer amazing prizes!

Monologue Competition

Submit a creative and entertaining delivery of a monologue to win a showreel recording and theatre tickets!
